

CODE OF PRACTICE FOR ENTRY INTO AND SAFE WORKING IN CONFINED SPACES

AMENDMENT NO. 1

May 2005

1. Page 7, 2.2 Confined space

Replace the definition with the following text:

Any chamber, tank, vat, pit, pipe, flue including any other similar space in which:

- (a) dangerous airborne substances are liable to be present to such an extent as to involve risk of fire or explosion occurring; or
- (b) dangerous airborne substances are liable to be present to such an extent as to involve risk of persons being overcome by such substances; or
- (c) there is a risk of persons being asphyxiated due to inadequate supply of air.
