

**Methods of test for paints, varnishes and related materials
– Part B10 : Spraying properties**

CORRIGENDUM NO. 1

August 2018

1. Page 8, 5.3.2 Application

Replace 2nd sentence “The spray gun shall be so held that the flow is perpendicular to the panel.” with “The gun shall be held perpendicular to the panel while spraying and moved in a straight line across the face of the panel.”

2. Page 9, 5.4.3 Dry film

Replace “crating” in item (h) with “cratering”.
