

**Specification for hot-applied thermoplastic road marking materials  
– Materials, performance and application**

**CORRIGENDUM NO. 1**

March 2022

**1. Page 6, 3.11 Pigment**

*Replace* NOTE 1 with the following:

Note 1 to entry – There is no requirement for the composition of yellow pigment. A suitable yellow pigment may be substituted for all or part of titanium dioxide.

**2. Page 11, 6.4 Skid resistance**

*Replace* the 2<sup>nd</sup> sentence of NOTE 1 with the following:

The specified SRT value takes into consideration the allowable traffic speed on the marking.
