

**Specification for aluminium framed sliding glass doors**

**AMENDMENT NO. 1**

June 2016

**1. Page 10, Clause 3 Definitions**

(a) *Insert* two new definitions and *renumber* the existing definition 3.20 as 3.21 as follows:

**3.20 Public areas**

Public areas are any areas which are open and accessible by the general public.

**3.21 Rail**

A horizontal member of the panel of a sliding door.

**3.22 Safety glass**

Glass that breaks safely as defined in SS 341.

(b) *Renumber* the existing definitions 3.21 to 3.31 as 3.23 to 3.33.

**2. Page 11, 4.4 Glass**

*Replace* the entire text as follows:

Glazing shall only be of safety glass that complies with SS 341. Laminated safety glass shall be used in public areas.

Hermetically sealed double glazing units shall comply with EN 1279 or ASTM E2190.
