This Singapore Standard having been approved by the Chemical Industry Standards Committee was endorsed by the Standards Council on 31 March 1978.

First published, 1978

The Chemical Industry Standards Committee appointed by the Standards Council consists of the following members:—

	Names	Organisations
Chairman:	Dr Whang Sun Tze	Standards Council
Deputy Chairman:	Associate Professor Sim Keng Yeow	—
Secretary:	Miss Tai Mee Yin	Singapore Institute of Standards and Industrial Research
Members:	Mr Cheah Sin Hua	Singapore Manufacturers' Association
	Mr Chua Teck Hock	Ministry of Science and Technology, Department of Scientific Services
	Dr Lee Swee Yong	Nanyang University, Chemistry Department
	Mr Lim Kim Wah	Institution of Engineers, Singapore
	Mr Ho Bo Lum	—
	Dr Robert Hui Kou Mow	Singapore National Institute of Chemistry
	Dr Mok Kum Fun	University of Singapore, Department of Chemistry
	Mr Poh Hee Seng	Singapore Polytechnic
	Mr Tan Buang Kher	Singapore Manufacturers' Association
	Mr Yeow Chee Tiong	Singapore Institute of Standards and Industrial Research

The Technical Committee appointed by the Chemical Industry Standards Committee and responsible for the preparation of this standard, consists of representatives from the following organisations:—

	Names	Organisations
Chairman:	Mr Chua Teck Hock	Chemical Industry Standards Committee
Secretary:	Mrs Lee-Yoong Ngeun Yoon	Singapore Institute of Standards and Industrial Research
Members:	Mr Chong Cheng Kwan	Colgate-Palmolive (Eastern) Private Limited
	Mr Phang Pui Yeong	Ministry of Science and Technology, Department of Scientific Services
	Mr Lawrence Sandosham	Central Supplies Department
	Mr Tan Ngat Chew	Singapore Manufacturers' Association
	Mrs Tan Swan Beng	Singapore Institute of Standards and Industrial Research
	Mr Thee Chee Hian	Ministry of Defence
	Mr Wong Mong Hong	Lam Soon Cannery (Pte) Limited
	Mr Yong Teck Siong	Singapore Manufacturers' Association

To keep abreast of technological changes and new technical developments in the manufacturing sector, Singapore Standards are subject to periodical review. Revisions of Singapore Standards are announced through the issue either of amendment slips or of revised editions.

SINGAPORE STANDARD
SPECIFICATION FOR SCOURING POWDER

FOREWORD

This specification was drawn up by the Technical Committee on Detergents and approved by the Chemical Industry Standards Committee.

In preparing the specification, references were made to the following:

- | | | |
|----|--|--|
| 1. | ASTM D2356 : 67, Part 30 (1975) | Scouring Powder Compounds |
| 2. | British Standard 3762 : 1964 | Methods of Sampling and Testing Detergents |
| 3. | British Public Authority Standard 15 : 1974 | Scouring Powder |
| 4. | British Defence Specification 170 : 1968 | Scouring Powder |
| 5. | Canadian Government Specifications Board Standard 2-GP-9C : 1973 | Scouring Powder |
| 6. | Federal Specification P-S-311E : 1974 | Scouring Powder |
| 7. | Indian Standard 6047 : 1970 | Scouring Powders |
| 8. | South African Bureau of Standard 826 : 1973 | Scouring Powder : Synthetic Detergent Base |

Acknowledgement is made for the use of information from the above references.

Attention is drawn to the possibility that some of the elements of this Singapore Standard may be the subject of patent rights. Enterprise Singapore shall not be held responsible for identifying any or all of such patent rights.

NOTE

1. Singapore Standards (SSs) and Technical References (TRs) are reviewed periodically to keep abreast of technical changes, technological developments and industry practices. The changes are documented through the issue of either amendments or revisions.
2. An SS or TR is voluntary in nature except when it is made mandatory by a regulatory authority. It can also be cited in contracts making its application a business necessity. Users are advised to assess and determine whether the SS or TR is suitable for their intended use or purpose. If required, they should refer to the relevant professionals or experts for advice on the use of the document. Enterprise Singapore shall not be liable for any damages whether directly or indirectly suffered by anyone or any organisation as a result of the use of any SS or TR.
3. Compliance with a SS or TR does not exempt users from any legal obligations.

1. SCOPE

This specification covers scouring powder for the cleaning of porcelain faces (vitreous types), floors, marble and for general kitchen use.

2. CLASSIFICATION

The scouring powder covered by this specification shall be of the following types:

Type I — with chlorine-containing bleaching agent

Type II — without chlorine-containing bleaching agent
