The content of this Singapore Standard was approved on 11 May 2020 by the Quality and Safety Standards Committee (QSSC) under the purview of the Singapore Standards Council.

First published as CP 99, 2003 First revision and re-designated as SS 657, 2020

QSSC consists of the following members:

		Name	Representation
Chairman Deputy	:	Er. Go Heng Huat	Individual Capacity
Chairman	:	Mr Seet Choh San	Singapore Institution of Safety Officers
Advisor	:	Mr Chan Yew Kwong	Individual Capacity
Secretary	:	Ms Dorothy Er	Singapore Manufacturing Federation – Standards Development Organisation
Members	:	Er. Goh Keng Cheong	Housing & Development Board
		Er. Hashim Bin Mansoor	Building and Construction Authority
		Assoc Prof Hoon Kay Hiang	Nanyang Technological University
		Mr Koh Yeong Kheng	Association of Small & Medium Enterprises
		Mr Lee Kay Chai	The Singapore Contractors Association Ltd
		Prof Lee Pui Mun	Singapore University of Social Sciences
		Mr Lim Kee Huat	Society of Loss Prevention in the Process Industries
		Mr Steven Nah	Association of Process Industry
		Er. Ngiam Tong Yuen	Individual Capacity
		Mr Ong Liong Chuan	Individual Capacity
		Mr Perianan Radhakrishnan	Singapore Welding Society
		Assoc Prof Simon Poh Siew Beng	National University of Singapore
		Mr Derek Sim	Association of Singapore Marine Industries
		Mr Harnek Singh	Individual Capacity
		Mr Birch Sio	Singapore Manufacturing Federation
		Mr Alvin Soong Kheng Boon	Land Transport Authority
		Mr Tan Kay Chen	The Institution of Engineers, Singapore
		Mr Daniel Tan Kuan Wei	Individual Capacity
		Mr Jonathan Wan	Individual Capacity
		Mr Wong Siu Tee	JTC Corporation
		Mr Winston Yew	Workplace Safety and Health Council
Co-opted Member	:	Dr Lee Tong Kooi	Individual Capacity

QSSC set up the Technical Committee on Workplace Safety and Health to oversee the preparation of this standard. The Technical Committee consists of the following members:

		Name	Representation
Chairman	:	Mr Seet Choh San	Individual Capacity
Secretary	:	Ms Dorothy Er	Singapore Manufacturing Federation – Standards Development Organisation
Members	:	Mr Chow Choy Wah	Singapore Institution of Safety Officers
		Er. Veronica Chow	Occupational and Environmental Health Society
		Ms Delphine Fong Hung Ying	SPORT Singapore
		Assoc Prof Goh Yang Miang	National University of Singapore
		Mr Kareemkhan Mahaboob Khan	Building and Construction Authority
		Mr Bernard Kwok Hon Mun	Ministry of Manpower
		Mr Mohamed Aliffi Bin Ismail	Association of Singapore Marine Industries
		Mr Terence Ng Meng Hai	Housing & Development Board
		Mr Sze Thiam Siong	SETSCO Services Pte Ltd
		Mr Jonathan Tan Aik Leong	The Institution of Engineers, Singapore
		Mr Andrew Tan Hock Seng	Land Transport Authority
		Mr Yeo Kim Hock	The Singapore Contractors Association Ltd

The Technical Committee set up the Working Group on Industrial Noise Control to prepare this standard. The Working Group consists of the following experts who contribute in their *individual capacity*:

		Name
Convenor	:	Er. Chui Heng Tak
Deputy Convenor	:	Mr Tan Kia Tang
Secretary	:	Mr Arthur Goh
Members	bers : Er. Chong Lee Mei	
		Ms Evelyn Koh
		Mr Lem Chee Meng
		Dr Lim Chiak Hwee
		Mr Eric Loo Song Poh
		Mr Eric Ng Teck Sing
		Mr Ng Zhihan
		Mr Ong Yong Seng

The organisations in which the experts of the Working Group are involved are:

Absolute Instrument Systems Pte Ltd Association of Singapore Marine Industries ChemTech Speciality & Engineering Industries Environmental Engineering Society of Singapore Ministry of Manpower The Singapore Contractors Association Ltd Singapore Institution of Safety Officers The Institution of Engineers, Singapore TÜV SÜD PSB Pte Ltd

Foreword

This Singapore Standard was prepared by the Working Group on Code of practice for industrial noise control set up by the Technical Committee on Workplace Safety and Health under the purview of QSSC.

It is a revision of Singapore Standard CP 99 : 2003 "Code of practice for industrial noise control" and has been re-designated as SS 657 : 2020.

The summary of changes is as follows:

- a) Inclusion of noise risk management;
- b) Inclusion of ultrasound;
- c) Expansion of plant planning to include new plants and noise hazard management at workplaces;
- d) Inclusion of Annex N for sample checklist on noise hazard identification;
- e) Inclusion of Annex O for Noise exposure / Dose calculation chart;
- f) Inclusion of Annex P for list of noise control measures;
- g) Inclusion of Annex Q for noise monitoring and measurements;
- h) Alignment with current industry practices.

For more information on the protection of site personnel against noise-induced hearing loss, refer to SS 602, "Code of practice for noise control on construction and demolition sites".

It is presupposed that in the course of their work, users will comply with all relevant regulatory and statutory requirements. Some examples of relevant regulations and acts are listed in the Bibliography. The Singapore Standards Council and Enterprise Singapore will not be responsible for identifying all of such legal obligations.

The following sections of the standard were reproduced / adapted with the kind permission of the organisations shown below:

- The annexes, except for Annex F, Annex O, Annex N, Annex Q and Annex R, were reproduced from Guidelines for Noise Control and Vibration 2003, Ministry of Manpower.
- The sample checklist for noise hazard identification in Annex N, Workplace Safety and Health Council.
- Figure O.1 on partial noise calculation chart, Acviron Acoustics Consultants Pte Ltd.
- Table R.1 is adapted with permission from ACGIH®, 2019 TLVs® and BEIs® book. Copyright BEIs®" 2019. (See "Statement of Position Regarding the TLVs® and at https://www.acgih.org/tlv-bei-guidelines/policies-procedures-presentations/tlv-bei-positionstatement and "Policy Statement on the Uses of TLVs® and BEIs®" at https://www.acgih.org/tlv-bei-guidelines/policies-procedures-presentations/tlv-bei-policystatement)

Acknowledgement is made for the use of information from the above publications. The inclusion of these pictures and diagrams does not connote any endorsement of product/services and/or design concept by the Working Group and Enterprise Singapore.

Attention is drawn to the possibility that some of the elements of this Singapore Standard may be the subject of patent rights. Enterprise Singapore shall not be held responsible for identifying any or all of such patent rights.

NOTE

- Singapore Standards (SSs) and Technical References (TRs) are reviewed periodically to keep abreast of technical changes, technological developments and industry practices. The changes are documented through the issue of either amendments or revisions. Where SSs are deemed to be stable, i.e. no foreseeable changes in them, they will be classified as "Mature Standards". Mature Standards will not be subject to further review, unless there are requests to review such standards.
- 2. An SS or TR is voluntary in nature except when it is made mandatory by a regulatory authority. It can also be cited in contracts making its application a business necessity. Users are advised to assess and determine whether the SS or TR is suitable for their intended use or purpose. If required, they should refer to the relevant professionals or experts for advice on the use of the document. Enterprise Singapore and the Singapore Standards Council shall not be liable for any damages whether directly or indirectly suffered by anyone or any organisation as a result of the use of any SS or TR. Although care has been taken to draft this standard, users are also advised to ensure that they apply the information after due diligence.
- 3. Compliance with a SS or TR does not exempt users from any legal obligations.

Code of practice for workplace noise control

1 Scope

1.1 This standard provides guidance and recommendations on risk assessment, monitoring and control of workplace noise. This standard is applicable to all workplaces where persons are exposed or likely to be exposed to excessive noise.

1.2 This standard does not cover community noise and environmental noise such as noise from construction, public entertainment and transportation. For environmental noise control at construction and demolition sites, refer to SS 602.

2 Normative references

The following referenced documents are indispensable for the application of this standard. For dated references, only the edition cited applies. For undated references, the latest edition of the referenced document (including any amendments) applies.

- IEC 61672-1 Electroacoustics Sound level meters. Part 1 Specifications
- IEC 61252 Electroacoustics Specifications for personal sound exposure meters
