Foreword

This Singapore Standard was prepared by the Technical Committee on Paints and Varnishes under the direction of the Chemical Standards Committee.

It is a revision of SS 38 : 1971. The major changes in the revised edition are as follows:

- (a) Exclusion of quantitative requirement for “vehicle content”.
- (b) Adoption of requirement on reduction of uncombined water.
- (c) Amendment to ranges of viscosity.
- (d) Amendment of temperature for keeping quality of paints.
- (e) Significant reduction of lead content requirement.

In preparing this specification, reference was made to the following publications:

- 1) BS 388 : 1972 - Specification for aluminium pigments
- 2) BS 1795 : 1976 - Specification for extenders for paints
- 3) SS 5 “Methods of test for paints, varnishes and related materials”

Acknowledgement is made for the use of information from the above publications.

Attention is drawn to the possibility that some of the elements of this Singapore Standard may be the subject of patent rights. Enterprise Singapore shall not be held responsible for identifying any or all of such patent rights.

NOTE

1. *Singapore Standards (SSs) and Technical References (TRs) are reviewed periodically to keep abreast of technical changes, technological developments and industry practices. The changes are documented through the issue of either amendments or revisions. Where SSs are deemed to be stable, i.e. no foreseeable changes in them, they will be classified as “Mature standards”. Mature Standards will not be subject to further review, unless there are requests to review such standards.*
2. *An SS or TR is voluntary in nature except when it is made mandatory by a regulatory authority. It can also be cited in contracts making its application a business necessity. Users are advised to assess and determine whether the SS or TR is suitable for their intended use or purpose. If required, they should refer to the relevant professionals or experts for advice on the use of the document. Enterprise Singapore and the Singapore Standards Council shall not be liable for any damages whether directly or indirectly suffered by anyone or any organisation as a result of the use of any SS or TR. Although care has been taken to draft this standard, users are also advised to ensure that they apply the information after due diligence.*
3. *Compliance with a SS or TR does not exempt users from any legal obligations.*
