

Code of practice for renewable energy certificates

CORRIGENDUM NO. 2

January 2022

1. Page 26 of SS 673:2021+C1:2021, 7.1.1 General

Delete “c) Full name or registered company’s name;”.

2. Page 27 of SS 673:2021, 7.1.2 Public report on installations

Replace the subclause with the following:

7.1.2 Public report on installations

The REC registry shall provide a public report on their installations and keep it updated with the latest information.

The following information on the installations should be provided in this public report:

- a) Name of installation;
- b) Unique installation ID;
- c) Renewable energy source/technology/fuel type;
- d) Single installation or installation group;
- e) Name-plate rating of each installation (and total name-plate rating of installation group);
- f) Location of the installation(s);
- g) Country which the installation is located; and
- h) Commenced operation date of installation(s).

NOTE – The above list is not exhaustive.
