

**Suitability of non-metallic materials and products for use in contact with water intended for human consumption with regard to their effect on the quality of the water
– Part 2:4: Methods of test – Growth of aquatic microorganisms test**

AMENDMENT NO. 1

March 2024

1. Main title of standard

Add “materials” to the main title of SS 375 as shown below, wherever it appears in the standard:

Suitability of non-metallic materials and products for use in contact with water intended for human consumption with regard to their effect on the quality of the water

2. Replace the following normative references wherever they appear in the standard:

Normative reference	Replaced by
BS EN 25814, Method for determination of dissolved oxygen in water: electrochemical probe method	ISO 5814, Water quality - Determination of dissolved oxygen - Electrochemical probe method
BS EN ISO 3696, Water for analytical laboratory use – Specification and test methods	ISO 3696, Water for analytical laboratory use – Specification and test methods
