Management Systems Standards Committee

Shaping enterprises to be ready for the future

Initiated by

SPRING
singapore
Enabling Enterprise

What we do

The Management Systems Standards Committee, under the Singapore Standards Council, develops and promotes standards that meet key challenges of enterprises today. These include raising productivity, boosting quality and mitigating risk.

Under our purview, various Technical Committees and Working Groups are formed. They actively monitor and participate in the development and review of international standards that are of importance to Singapore, including those pertaining to new technologies and in emerging industries. These committees also champion industry adoption of management practices that drives enterprise competitiveness, resilience and sustainability.

As a national standards body, SPRING Singapore administers the Singapore Standardisation Programme under the guidance of an industry-led Singapore Standards Council.

Key areas

- Business continuity management
- Conformity assessment
- Consumer policy
- Occupational safety and health management
- Quality management
- Risk management

Major Singapore Standards

SS 506 series	Occupational safety and health management systems
SS ISO 9001:2015	Quality management systems - Requirements
SS ISO 19600:2015	Compliance Management Systems - Guidelines
SS ISO 22301:2012	Societal security - Business continuity management - Requirements
SS ISO 31000:2011	Risk management - Principles and guidelines

Who we are

Our committees and working groups comprise standards partners from educational institutions, government agencies, industry associations and professional bodies with vast experience in the industry.

Listed below are some of the key organisations with partners involved in our work:

Educational Institutions

- Nanyang Technological University
- National University of Singapore
- SIM University

Government Agencies

- Ministry of Manpower
- SkillsFuture Singapore

Industry Associations & Professional Bodies

- Association of Small & Medium Enterprises
- Consumer Association of Singapore
- Singapore Chemical Industry Council
- Singapore Hotel Association
- Singapore Manufacturing Federation
- Singapore Productivity Association
- Singapore Retailers' Association

Representatives from large, small & medium enterprises are also actively involved in our work.

Get involved as a Standards Partner today

Participating in standardisation work allows you to stay in the forefront of the latest regional and international developments that are relevant to your industry. It also provides opportunities for you to network with the experts and key players in the industry. If you are interested to play a part in shaping the future standardisation landscape in Singapore, we welcome you to join us as a Standards Partner.
